

# SPACE QUEST 2009

## CHALLENGER LEARNING CENTER AT PADUCAH

### **Astrotot Camp New!**

Astrotot Camp is offered to students that will be rising into **Kindergarten - 1st grades** in August 2009. Choose from our Rockin' Rockets or Cosmic Constellations sessions. Each session is two hours in length.

### **Mission Specialist Training I**

Mission Specialist Training I is offered to students that will be rising into **2nd - 3rd grades** in August 2009. This one-day camp includes many hands-on math and science activities.

### **Mission Specialist Training II**

Mission Specialist Training II is offered to students that will be rising into **3rd - 4th grades** in August 2009. This one-day camp includes many hands-on math and science activities.

### **CSI Camp (Challenger Special Investigator)**

Become a Challenger Special Investigator. Read the ransom note and follow the fingerprints, fibers and other clues. You will use your powers of observation and conduct scientific tests to help solve the mystery of the missing Mars rocks. CSI camp is offered to students that will be rising into **5th - 8th grades** in August 2009. This is a 2-day camp.

### **Mission to Mars Camp**

Be the first human on Mars! Campers will travel to the Red Planet during a Voyage to Mars™ mission in our hands-on simulator. After arriving on Mars, they will build a life-size colony where they will live, work and train like real planetary astronauts. Mission to Mars Camp is offered to students that will be rising into **4th - 7th grades** in August 2009. This is a 3-day camp.

### **Robotics Camp**

Be a Challenger robotics engineer! Teams will design and build robotic arms, Robotix space rovers and junk robots. Engineers will also program and build Lego Mindstorm robots. Robotics Camp is offered to students that will be rising into **5th - 8th grades** in August 2009. This is a 3-day camp.

### **Rocket Camp**

Rocket Camp is offered to students that will be rising into **5th - 8th grades** in August 2009. After learning about the basics of rocketry, participants will build and launch FIVE different types of rockets including eggstronaut rockets and model rockets. This is a 3-day camp.
